# Participating companies:

- Insinuate that you know something about their company
- Make it casual/comfortable but professional
- Seem competent and showcase your personality
- Take a respectful amount of time

# Info Sessions

- Why it's important to go to info sessions:
  - For people looking for a job/internship: For the companies on Thursday, if you speak with them afterwards, they might have an interview availability for you
  - For the underclassmen, info sessions are made for you! Recruiters want to tell you about their company for next year, and they want to see who's interested.
  - Find out the company's "vibe" and goals
  - Learn more about the actuarial profession from people in it
  - Ask questions!
- Need 3 - 5 volunteers both nights to pick up food in the 30 min gap , talk to Michael
